SUMMARY

Aspiring MERN stack developer skilled in full-stack web development and RESTful APIs, seeking to build scalable and responsive web applications. Strong foundation in data structures, problem-solving, and software development principles. Passionate about clean coding, performance optimization, and modern web technologies.

TECHNICAL SKILLS

Programming Languages: Java, Python, C++

Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman

Concepts: REST APIs, CRUD Operations, Authentication, Responsive Web Design, UI/UX Basics

EDUCATION

Bachelor of Technology in Computer Engineering

2023 – 2027

Savitribai Phule Pune University (SPPU) — CGPA: 9.03/10

Higher Secondary Certificate (XII) — Science

2023

N.T. Mundada High School, Jalgaon — Percentage: 70.80%

Secondary School Certificate (X)

2021

Shri N.T. Mundada Global View School, Jalgaon — Percentage: 90.20%

INTERNSHIP EXPERIENCE

Frontend Web Development Intern — Edunet Foundation (AICTE Collaboration)

Aug 2025 – Sept 2025

- Built responsive web pages using HTML, CSS, and JavaScript.
- Developed reusable UI components and interactive interfaces.
- Implemented form validation and improved user experience.
- Followed clean coding practices and component-based architecture.

ACADEMIC PROJECTS

Lost & Found — Full Stack Web Application

- Developed a full-stack web application to help users report and track lost and found items.
- Designed responsive frontend interfaces for item listing, reporting, searching, and filtering.
- Built REST APIs for item management and status updates using Node.js and Express.js.
- Integrated MongoDB database to store item details and user submissions.
- Implemented image upload and form validation for improved usability.

Tech Stack: MongoDB, Express.js, React.js, Node.js

Daily Task Tracker — Full Stack Web Application

- Developed a task management system with features to add, edit, delete, and track tasks.
- Built responsive React components for task creation, search, and due-date highlighting.
- Created backend APIs for task CRUD operations and data handling.
- Focused on clean UI, component-based development, and improved user experience.

Tech Stack: MongoDB, Express.js, React.js, Node.js

ACHIEVEMENTS

- Built multiple full-stack MERN applications with real-world functionality.
- Successfully completed "Introduction to Soft Skills" — TCS iON.
- Certified by IIT Bombay for completing SQL Training (Spoken Tutorial Project).
